

OPENING THE DOOR TO HOME AUTOMATION

SMART HOME SYSTEM INTEGRATORS

DESIGN AND INSTALLATION

STRUCTURED WIRING • HOME THEATER • WHOLE HOUSE MUSIC AND VIDEO • LIGHTING CONTROL
SECURITY • COMPUTER NETWORKING • HVAC • HOME AUTOMATION & INTEGRATED CONTROLS

Welcome to Summit Smart Homes. Our promise is a simple one. Summit Smart Homes is your source for the best in practical, affordable and exciting home automation technology. As Smart Home Integrators, we work to design integrated solutions that reflect each homeowner's unique needs. We can enhance your lifestyle by providing optimal comfort, convenience, security and entertainment solutions, while also saving you money.

CREATE THE PERFECT ENVIRONMENT

Technology continues to change and improve the way we live and manage our homes. It enhances the way we communicate, experience our entertainment and control our environment. Home automation integrates all your home systems seamlessly providing remote or automatic control of components throughout your home.

- Home Theater & Entertainment
- HVAC/Environmental Systems
- Lighting Controls
- Security & Access Control Systems
- Surveillance Cameras
- Whole House Audio and Video

HOME AUTOMATION WITH EASE

Imagine your home as a castle and you have the power to control it. Our integrated systems are designed so that you can operate almost every electronic device in your home.

Through simple-to-use touch screens, keypads, voice commands or via the internet, this system will allow you to control the home, even while away. With the push of a single button, you can arm the security system, turn off the interior lights and adjust the thermostat.

Enhance Your Lifestyle with a "Smart Home"

LISTEN TO MUSIC IN ANY ROOM

Sound makes for the ambiance of a home. Imagine soft background music while having dinner with your family and friends. This is the pleasure you'll get from beautiful music played everywhere in the home or only in the room you desire.

If you wish to maintain the décor of the room, we will discreetly hide the speakers. Take it a step further and expand your music system to be played throughout the outdoor areas.

LIGHTING DESIGN FOR AMBIANCE, SECURITY AND COST SAVINGS

Lighting adds to everything in the home. It creates the mood for all activities. Create a romantic dinner when it's just the two of you. Turn on/off/dim all the lights in one room or throughout the house with a single remote control.

By integrating home lighting with the home automation system, automatically control your lights based on events that you define, such as slowly turning on the lights to awake the kids for school. Automatically turn off all the lights as you set the security system when you leave your home to save time and money on electrical costs.

ENJOY THE EXCITEMENT OF YOUR OWN HOME THEATER OR MEDIA CENTER

Dedicated home theaters and media centers provide the perfect environment for bringing the family together or entertaining guests at home. Nothing adds to your enjoyment more than our elegant theaters, which are specially designed with enhanced acoustics, seating, lighting and visual projection.

As you sit back in the seat and the curtains unfold, your ears will be filled with superior sound and your eyes will be captivated with vivid and vibrant images. Now is your time to relax and enjoy the show.

CUSTOMIZE YOUR HOME'S INTERIOR DESIGN

Custom designs can be tailored to the desired look of a particular room. We'll hide electronics by using in-wall and on-wall speakers with artistic panels. Flat panel TVs can be framed with murals, mirrors or photos that can hide the devices to create a complementary décor.

Electronics can be easily blended into a room's interior design scheme. Colors, artistic designs and fabrics can be chosen to augment the visual integration process. We can recommend options as well as work directly with your preferred interior designer or builder.

ENHANCE YOUR NEW OR EXISTING HOME

Whether you are building a new custom home, remodeling, or simply adding electronics to your existing home, Summit Smart Homes can provide a complete, customized system to match your needs.

Automate your home now!! Save time and money while improving convenience, comfort, entertainment and security in your home. A Smart Home is as smart as one desires. It's affordable and can be expanded based on your needs and lifestyle. Let Summit Smart Homes show you how to live smart.
